Subject: South Dakota DENR Recommendation on Powertech Large Scale Mine Permit
Attachments: Powertech Recommendation.doc; Powertech Mine Permit Conditions 2013.docx

Ms. Yilma,

Please find attached the SD DENR's recommendation and recommended conditions for the Powertech large scale mine permit.

At this time the permit hearing before the SD Board of Minerals and Environment is tentative. A pre-hearing is being scheduled for May, with the actual hearing planned for this Fall.

We welcome any comments you may have regarding the attached conditions. The conditions are not set in stone, they can be amended before the Board.

Mike Cepak
